20 JUN | iConnect: Axio Hardsleeve for MacBook/MacBook Pro

Posted by John as iConnect

All notebook owners know it's a hassle to find the perfect case for them, and Apple users know that we're all overprotective of our MacBook's and MacBook Pro's. Here to solve that problem is the [Axio Hardsleeve](#).

Unlike most notebook sleeves the [Axio Hardsleeve](#) is made out of a rugged ABS plastic that is very durable and isn't too bulky. Inside is a form-fitting EVA foam that keeps your MacBook or MacBook Pro snug and tight inside of the sleeve.

The only downside is there are no handles or extra pockets to store your power brick or other accessories. The Hardsleeve from [Axio](#) is still great for having the most protection on the go in a sleek and stylish form. It's available now for a price of \$79.95, a price you'll want to pay for this kind of protection.

Pros

- Protects your notebook in style.

Cons

- No handles or extra pockets for storage.

Final Verdict

4.5 out of 5 stars.
